SUMMARY

Computer Science Engineering student interested in Full Stack Development, AI-assisted development, cybersecurity, and real-world problem-solving. Skilled in building responsive web applications, dashboards, authentication-based systems, and practical digital solutions. Active in hackathons, open-source contribution, and developer community events.

TECHNICAL SKILLS

Languages: Python, C, C++

Web: HTML, CSS, JavaScript, Node.js

Database & Backend: Firebase, MySQL, Authentication Systems, API Integration

Tools: Git, GitHub, VS Code, Netlify, Google Sheets, AppSheet

Concepts: Responsive Design, Full Stack Development, CRUD, Dashboards, Cybersecurity Basics

PROJECTS

Gramoday / AgriVerse — Smart Agriculture Platform

- Working on a farmer-focused platform with crop guidance, weather advisory, mandi prices, schemes, and marketplace features.
- Focused on modern UI, rural use cases, and practical farming decision support.

Prayagraj Rooms — Student Accommodation Platform

- Built a student room-finding web platform with user/admin dashboard and responsive UI.
- Worked on authentication, dynamic data handling, and deployment-ready structure.

ERP-Based Student Management System — Smart India Hackathon

- Worked on an ERP solution for admission, fees, hostel, attendance, exam records, and student data management.
- Planned role-based dashboards, QR attendance, notifications, reports, and AI chatbot support.

Password Generator — Python Tkinter

- Created a GUI-based password generator with length selection, character options, validation, and copy feature.
-

EXPERIENCE

Python with Machine Learning / Data Science Internship

- Learned Python, data handling, basic machine learning, and project-based problem-solving.

Ethical Hacking / Cybersecurity Internship

- Learned cybersecurity fundamentals, vulnerability analysis, and basic security testing concepts.

Open Source Contributor — Wickitech

- Contributed to open-source work and improved GitHub collaboration workflow.
-

ACHIEVEMENTS

- Smart India Hackathon Participant
 - Hackathon Team Lead
 - Google Developer Groups Event Participant
 - Google Student Ambassador / Community Involvement
 - Selected for APCSIP-2026 Internship Program
-

EDUCATION

B.Tech — Computer Science & Engineering

United Institute of Technology, Prayagraj | AKTU

2024 – 2028 | Currently: Second Year, 4th Semester
