Education

United Institute of Technology, Prayagraj

2020-2024

Bachelor of Technology, Computer Science and Engineering

Jwala devi S.V.M Inter College, Prayagraj

2023

12th standard | 2023 | UP Board

10th standard | 2021 | UP Board

2021

ACHIEVEMENTS

1. Full Stack Developer Intern | HeiSyn

June 2026 – Present

- Working on AI-powered automation workflows, REST API integration, and intelligent agent development.
- Learning modern full-stack development practices, database integration, and scalable software architecture.

2. Selected for APCSIP-2026 Internship Program

Apr – Aug 2024

Location: Amroha

- Gained hands-on experience in cybersecurity domains including digital forensics, malware analysis, cyber laws, OSINT, and secure system practices through practical training and case studies.
- Performed Android APK analysis, OCR-based investigations, and basic incident response while learning industry tools and modern cybersecurity methodologies.

Personal Projects

1. Genis- AI Digital Twin

- Developed a Retrieval-Augmented Generation (RAG) based AI assistant with persistent memory, multimodal data ingestion, and personalized response generation.
- Built using Python, PyTorch, Hugging Face Transformers, LoRA, OpenCV, and JavaScript with secure permission management and voice capabilities.

2. Gramoday / AgriVerse — Smart Agriculture Platform

- Working on a farmer-focused platform with crop guidance, weather advisory, mandi prices, schemes, and marketplace features.
- Focused on modern UI, rural use cases, and practical farming decision support.
